Project Summary

Week 5 (12th of August 2024)

TechLabs

Achievements so far:

- Data Cleanup
- Confirmed to use our model to do movie prediction based on keywords
- Creating a model for filtering keywords
- Creating a GUI prototype with TKinter

Focus for next two weeks:
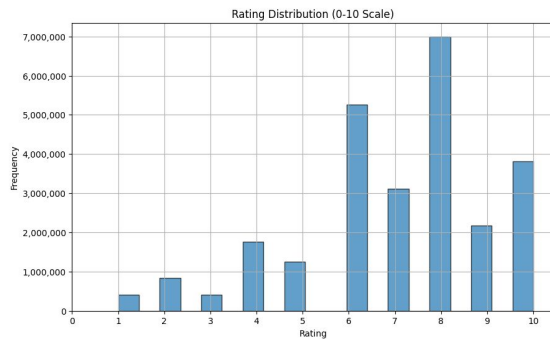

Topics	Priority	Completed by:
Create a draft of the model with clustering	**High**	Aug 16
Visualize data for current datasets	**Medium**	Aug 16
Build a Tkinter GUI	**Medium**	Aug 23
Improvements of Keyword filter	**High**	Aug 14

Lessons learned:

- Team organization
- Communication
- Comparing solutions

# High-Level Movies Data Overview
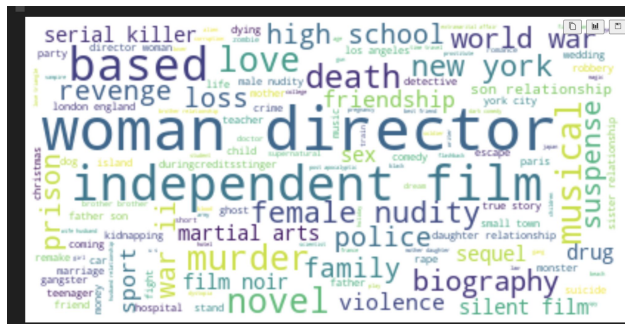

User Rating Distribution

Languages v. User Rating
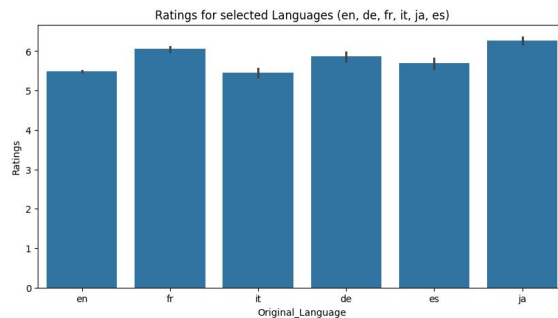

Languages vs. Budget

Keywords Inventory (1.75 mil +)

Runtime v. User Rating
